If desired we can also link back to your site.

2. Upon request we can adapt (free of charge) the settings of the check for your customer PDF files, fitting your specific needs.

3. Your customer uploads PDFs to our web-site. The files get checked, fixed and certified.

4. Customers get a fixed & certified PDF file. Report is also embedded in the PDF file for your convenience.

5. You receive a checked & certified PDF from your customer, saving you a lot of time and problems. Either prioritising these PDF files or giving customers a discount, can motivate them to deliver files same way also next time.
